It was beautiful*

ANTIZ SKATEBOARDS REISSUE SERIES

Over the years we have saved and decorated our office walls with our old boards that have classic or in someway important graphics.

Every now and then when “the family” meets in the office, we end up gazing and reminiscing about the old boards and discuss how cool it would be to put some of them back under our feet.

To put some of those words into action we would like to present you a catalog full of some of our finest graphics with a special wood.
