

#COMMITTEDTOSKATEBOARDING

Since 1999, C1RCA has remained committed to skateboarding. Designing, developing and producing quality footwear for skateboarding by skateboarders. For our Spring/Summer 2015 collection, we scaled back the line to focus on quality versus quantity. With new models like the JC01, G0LIATH, the rebirth of the classic CX201 combined with the new additions to our skate team, we can proudly say the we are "Committed to Skateboarding".

SPRING / SUMMER 2015

JC01 JIMMY CARLIN SIGNATURE MODEL

Jimmy Carlin's personality maybe larger than life, but his first pro model CTRCA shoe is the polar opposite. The JC01 sits on our lowest profile cupsole design to date and is secretly equipped with our patented Aerocush™ support system in the midsole of the shoe. Don't let the super slim silhouette fool you, this shoe is designed for shredding.

DAVID GRAVETTE SIGNATURE MODEL

Who says sequels aren't better? The follow up to David Gravette's first pro model is on point. We designed this bad boy on a new last which allows the lip of the seamless toe cap to sit flush with the vulc tape providing a glove-like fit for that extra flick.

Combine that with our proven vulcanized construction quality and FusionGrip™ outsole and you've got yourself a winner.

PAST.

2000 CX201

Originally released in 2000, with it's unique side panel and classic silhouette, the CX201 became an instant C1RCA team favorite and must have shoe for every skate rat during that time period.

PRESENT.

2015 CX201

Back by popular demand, we took the CX201 and put it on a brand new low profile cupsole, added a durable yet lightweight

Aerocush™ midsole and gave the upper a slimmed down modern update. This shoe will not only appeal to the nostalgic

skater in all of us but also the modern day technician.
