BLACK | NAVY
SIZES: 28 30 32 34 36 38

COOLMAX ECOMADE

All season Re-wick fabrics are made with polyester fibers from Invista that are spun from post-consumer recycled plastic bottles. COOLMAX fabrics have four channel cross sections that give them moisture wicking properties. The fibers transport moisture away from the body and help you dry and regulate body temperature without added chemicals.

HIGHLAND CORD | RELAXED

- 7.8oz poly / B.C.I. organic cotton / T-400 Lycra® blend
- all season COOLMAX® / Thermolite® Poly
- 5 pocket
- organic cotton pocket bags
- YKK fly zipper
- stretch
- Re-wick MM
- antimicrobial
- 32" inseam

BURGANDY | OMBRE BLUE | GREEN
SIZES | 28 30 32 34 36 38

EVERLIGHT SHELL

Everlight rip-stop is constructed from nylon and spandex and creates an alternative for comfortable cotton knit fabrics. The 4-way 5.9oz stretch fabric is DWR coated, moisture wicking and extremely durable. These features make activities like running, climbing, camping, hiking or simply lounging around more enjoyable.

TRAILHEAD PANT

- rip-stop nylon/spandex
- stretch
- Re-wick MM
- antimicrobial
- packable
- elastic / adjustable waist belt
- back pocket flap
- adjustable leg opening
- 32" inseam

NAVY | GRAY | BROWN
SIZES: S - XL

RE-WICK

MOISTURE MANAGEMENT

Re-wick moisture management is a patented blend of 85%-90% hydrophobic (water-halting) yarns and 10%-15% of hydrophilic (water-loving) fibers. This combination of yarn works together to efficiently grab moisture away from the skin and wick it to the outside of the fabric where it can evaporate quickly. This technology eliminates the need for chemicals and will continue to perform through regular washing. Re-wick is great for layering because there is no static or wear of its own.
