

The background of the entire image is a close-up, top-down view of dark brown, crumbly soil. The soil is uneven and textured, with many small clumps and gaps, creating a rich, earthy appearance. The lighting is somewhat directional, coming from the upper left, which creates subtle shadows and highlights on the soil's surface, emphasizing its granular nature.

FABRICS & FUNCTION

PINETECH

PINETECH 20K is our pinnacle performance shell. Combining a highly breathable and water-proof membrane

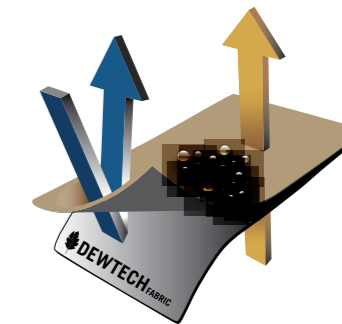

(20.000 g/m²/24h, 20.000 mm) with our finest fabrics for ultimate protection in any conditions. A 3-layer durable, light weight and comfortable fabric for your demanding outdoor needs.

DEWTECH

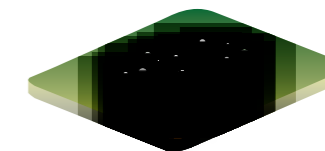

DEWTECH 5 provides the wearer with solid levels of waterproofing, breathability and comfort which most brands only feature in their most expensive garments.

Dewtech 5 sets the Colour Wear standard. Stay dry, stay warm and stay comfortable in this coated durable fabric offering 5.000 g/m²/24h breathability, 5.000 mm waterproofness.

WATER REPELLENT

WATER REPELLENT is a special treated fabrics which help provide adequate protection from the rain without losing their soft urban touch and feel. Achieved thanks to a DWR (Durable Water Repellent) shell finish.
