1970 Chevelle SS 396.

It's getting tougher and tougher to resist.
Standard V8 has been kicked up to 350 hp.

A new air-gulping Cowl Induction Hood
awaits your order.

You can also order your choice of a floor-

mounted 4-speed or the 3-range Turbo Hydra-
matic. Under that lean and hungry look is a lean
and agile suspension, F70 x 14 white-lettered

wide oval treads, 7"-wide mag-type wheels. And
power disc brakes.

Your mission is to infiltrate your Chevy

dealer's showroom and escape with this car.
It will go willingly.

Putting you first, keeps us first.

On the move. 

We built more cars...

In ten seconds, your resistance will self-destruct.
