PEARLESCENT
INK PRINTS

This new series for Kyle and Chima takes floral patterns to new levels - with foil behind the blocked in graphics and pearlescent print around the sides - these boards came out better than we imagined.

WILLIAN SANTIAGO

Willian Santiago is a Brazillian illustrator and painter who grew up skating. His artwork mixes vibrant colors with bold patterns inspired by the landscape, animals, and nature of brazil. His works for Ishod, Kyle, and Davis came out great and we encourage you to see more of his work on Instagram at [@willian_santiago](https://www.instagram.com/willian_santiago)

OVERSPRAY TEAM OVALS

The newest Oval Series - we tried a new overspray technique to give them a completely new look.

Each board has a specific top and bottom ply stain color - then sprayed all the way around with a clear color coat, changing the colors completely.

Slide through the first color and you'll see the original color ply coming through!
