# HUF

Our HUF Spring 2012 Collection pushes forward with simple, clean aesthetic, drawing inspiration from classic military and workwear styles, fabrics, and details. The outerwear, knits, wovens, and bottoms continue a similar theme of previous seasons – strong and straightforward design, coupled with classy and minimal branding, allows each piece to speak for itself. New headwear styles are introduced for Spring, in addition to the well-established snapbacks, volleys, and 6-panel caps that hit hard every season. Spring '12 graphics are guided by the daily D.B.C. lifestyle yet maintain a timeless, vintage feel. All of our denim continues to be produced locally in downtown Los Angeles, where the new Keith Hufnagel Signature Denim was developed. The whole collection is designed for everyday use, combining comfort, function, and durability.
