This Summer, the RDS Team partook in Canada's Deadliest Tour. The pain (physical and mental) of nearly endless drives while packed into a tour van like a bunch of sardines is enough to make even the best of buddies turn on each other.

That's where this tour differed. A 30ft R.V. offered the dudes all the amenities of a small apartment to help sooth a majority of the stress incurred from being cramped in a van for days on end. It was just like driving down the highway in someone's living room, which is a fine place to get to know someone. To ease some of the team manager's concerns, Rick Yemm (a professional driver from Ice Road Truckers) was hired to drive the thing!

The plan was pretty simple Red Dragon sent out a crew of their riders to do demos and street skate across Canada. Add in an Ice Road Trucker, twenty-two days, a few special guests and an RV, and you've got the makings of one deadly tour.

Check out the November issue of THRASHER for more pics and details! Tour video on the way... Red Dragons!
