SPRING 23 - DROP 1

Thank you for taking the time with this one - we always appreciate it and never take it for granted that we get to make things for skateboarders.

Within these pages - We hope you find things in it that you like that help your skate shops and, in the end, add to the great moments spent rolling. Please keep an eye out for these releases.

### **New DLX True Fit Mold on select decks**

From **THUNDER**, a release from a legend, Guy Mariano, and an artist capsule from a favorite of ours, Mr. Akwasí Baffour Owusu @akwxi.

**VENTURE** Presents new offerings from both the energy company known as Chandler Burton and the master of balance, John Dilo.

**Ishod** and **SPITFIRE** brought the Formula Four smoke, and the Bighead got the Death Mask treatment you love to see ;)

**REAL** teamed up with Kathy Ager @kathyager to create a beautiful, limited photo-realistic mini-series. They also remixed the Cathedral series in Chromatic colors, equal bits skate-able, and wall hangers- your call.

Mark penned some great pieces for **KROOKED**, Bobby, Ray, Mike, the crew, and a limited **Joey Pepper Guest Deck**.

**ANTIHERO** and Todd Francis brewed us some AH tea for these anxious times, and Raney went back to his Texas roots for a shaped release that may not last ;)

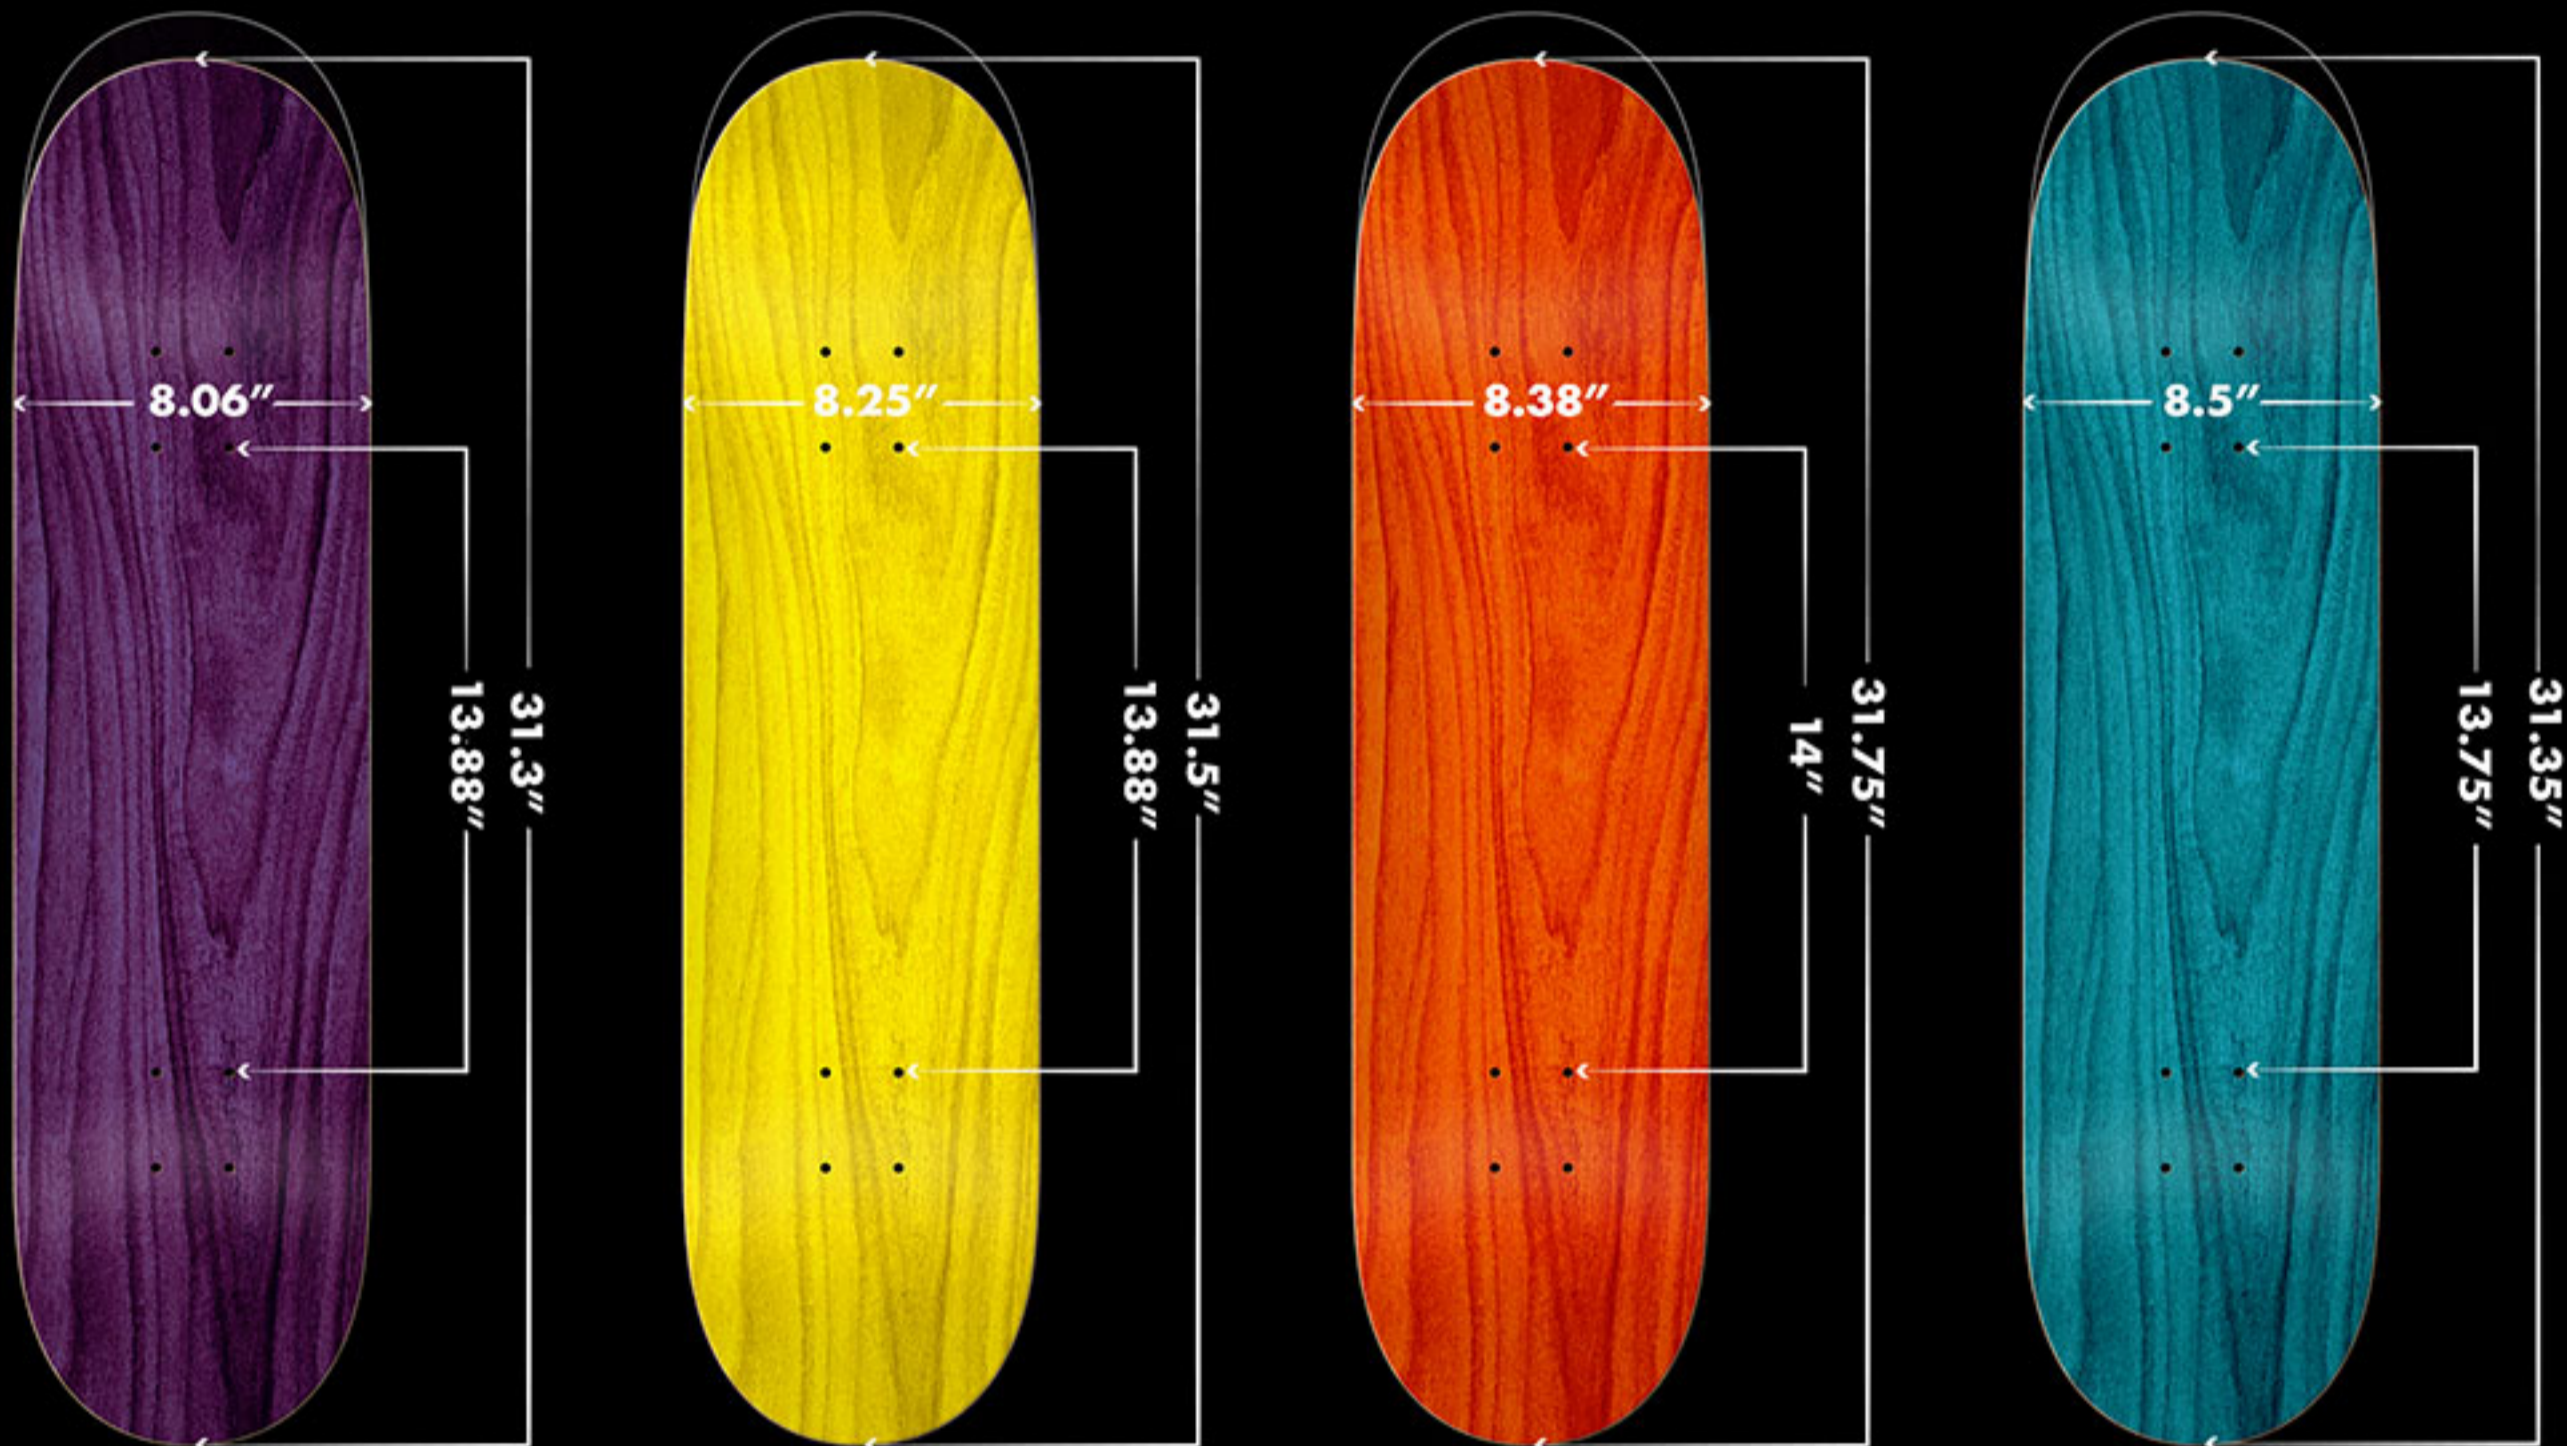

From **THERE**, Marbie created the art for both her shapes, and Jeff highlighted guest artist Matt Carignan's work @mattcarignantoon for Jessyka, James, and Chandler's Pro decks.

**'BY KATHY AGER' - PRO SERIES**

Kathy Ager is a Canadian born skateboarder and artist currently residing in Vancouver, who lent her talents for this Guest Artist Collection of boards and apparel.

Her oil paintings draw you into her world of imagination that is amazingly beautiful and vibrant, while at the same time dark and moody with a touch of nostalgia. Learn more about her work at [studioager.com](http://studioager.com) or on instagram [@kathyager](https://www.instagram.com/kathyager).

## ISHOD - FEATHERS TWIN TAILS

Did you know that Peacocks are actually from the Switchflippidus family of birds? That's right! They also have been known to migrate from the Krooknolliefip seaboard all the way down to the Nosemannollietre region?

Ok, ok, we're making all this up... pretty obvious, huh? We're no bird experts but these new Twin Tails from Ishod look really damn good.

CHARCOAL - SM - XL

## **Thank You!**

**As crazy as things can feel and may get, If we all learned anything through the pandemic (other than drinking a beer in a dark DLX art room at the end of the day, social distanced from a few close friends is a comforting way to end a day) it's clear that even if we are separated by a few feet or miles apart, we are together in all of this.**

**As we all navigate the coming months and work to make skateboarding better for all, here's a high five for your efforts as well.  
Thank you.**

**If we can do anything, help with anything, or you have suggestions for us with anything we're making - please drop us a line at [info@dlxsf.com](mailto:info@dlxsf.com).**
