

The **BE FREE** Series

Skateboarding has always been a way for you to do what you want and take new directions. For the new 'Be Free' series for Ishod, Kyle, and Chima we did just that and gave a new dyed veneer layering treatment a try...

Two-color gradient stain veneers on 5 out of the 7 plies from top to bottom, with two natural veneer X-band plies in between.

Pearlescent patterns over the graphics for another layer to make them stand out.

CANINES

We uncovered (found) the original artwork for it while working on an art show.

Doing a re-issue with it was a done deal and creating a twist of it for Davis using the same art technique was too fun.

Aging and a decline in performance in one or several life pursuits is a leading cause of depression, anxiety, and premature death. Thankfully you are living in the glorious 21st century, a time of not only great prosperity, but exponential leaps in the world of pharmaceutical sciences. "50 is the new 30" is a common phrase in today's world, a mantra of sorts for those of us who refuse to slow down and settle into a boring and actionless lifestyle. Decades of rapid advancement in pharmacology have created a virtual fountain of youth, overflowing with a bevy of products designed to **make you feel like you're 18 again.**
